HAWORTHIA

H. margaritifera — *Reinwardtii* — *rigida* — *rugosa*

H. turgida — *cymbiformis* — *retusa*

(Shown in 2¼-inch pots)

* * *

Something New for Enterprising Florists

Haworthias are small plants native to South Africa, of rosette or columnar rosette style of growth. For small pots and dish gardens they are unexcelled. They thrive under ordinary growing conditions, are not subject to rot, and endure much neglect without injury. The supply in the country is small. Those who delay their orders will be unable to get any.

Types with long-pointed leaves:

1. *H. margaritifera* — A variety; not the typical species. Coarse white dots. 10c.
2. *H. rugosa* — Numerous small dots. 10c.
3. *H. radula* — Dots very small and crowded. June. 25c
4. *H. glabrata* — A variety. One of the largest. 20c.
5. *H. fasciata* var. *caespitosa* — The gem of this genus and very scarce. A strikingly beautiful little plant. No stock for sale until June 1. Advance orders accepted. 50c.

Low growing types:

- 6. *H. retusa* — A rare species. \$1.50. No discount.
- 7. *H. turgida*. 25c.
- 8. *H. cymbiformis*. 5c.

A few other species of interest to collectors: *H. laetvirens*, *denticulata*, *Engleri*, *planifolia*, *atrovirens*, *granata*, *tesselata*.

Columnar types:

- 9. *H. coarctata* — The largest of this type. 10c.
- 10. *H. Reinwardtii* — A good small pot plant. White dotted. 10c.
- 11. *H. rigida* — 15c.
- 12. *H. hybrida* — 10c.
- 13. *H. Skinneri* — 25c.
- 14. *H. tortuosa* var. *pseudorigida* — 20c.
- 15. Probably a European hybrid. Leaves blackish-green. 20c.
- Apicra pentagona* — Resembles a columnar *Haworthia*. June. 25c.
- Aloe Beguinii* — Similar to No. 1 when small. \$5.00 per 100, 75c per dozen, postpaid.
- Agave americana* var. *medio-picta* — A rare century plant with a broad, yellow central stripe. A very decorative pot plant. Five to six inches. 15c.
- Grafted stapelia cristate* — A rare and handsome crest. June. 25c.
- Crassula perfossa* — Buttons on a string. June. 5c each; 50c dozen.

This is a wholesale list to the trade only. Positively no sale to collectors at these prices. Retail prices will be quoted on request.

Quantity lots of *Haworthias* will consist mostly of Nos. 1 and 2, with a small proportion of other sorts. Sizes 1½ to 2 inches in diameter. Prices: \$5.00 per 100; 50 at same rate, f.o.b.; 3 dozen for \$2.00, postpaid.

For parcels post shipments add 8 percent if east of the Mississippi river; 5 percent if west. For century plants add 20 percent.
